- **User instructions can be found in this manual.**
- **Tablet Companion package includes:**
 - **A 7" Screen Tablet with 3G internet connection**
 - **Carrying Case**
 - **Charging Adapter**
 - **Sim Card for 3G connection**
- **For any questions that are covered in this manual, or any issues you may have during the use of the device please contact with us at info@rentnconnect.com.**

• **Tablet at a Glance**

• **Please do not remove the Sim Card included with your device.**

- **Charging the Battery**

1. Connect your charger to the provided USB cable.
2. Connect the charger to a power outlet.
3. Connect your tablet to the USB cable to start charging the battery.

With the device powered on, the battery icon in the status bar turns  when the battery is fully charged.

- **Battery Usage Precautions**

If the tablet has not been used for a long time or the battery power is extremely low, you may not be able to power it on immediately after you begin charging the battery. This is normal. Allow the battery to charge for a few minutes before attempting to power your tablet on.

- **Powering On or Off**

Powering On

Press and hold the power key until the tablet vibrates. It may take up to 5 seconds until the device vibrates.

Powering Off

Press and hold the power key until a dialog box is displayed. Then follow the onscreen instructions to power off the device.

- **Gestures**

The following simple finger gestures make it easy to use your device.

Touch: Touch an item to select or open it.

Double-click: Touch the screen twice consecutively to zoom in.

Flick: Flick up or down to scroll up or down. Flick left or right to switch between screens.

Drag: Touch and hold an item to drag it to another position.

Pinch: Pinch two fingers together or apart to zoom in or out. You can use this gesture when browsing photos and web pages.

- **Shortcut buttons**

The following shortcuts buttons help navigate the tablet

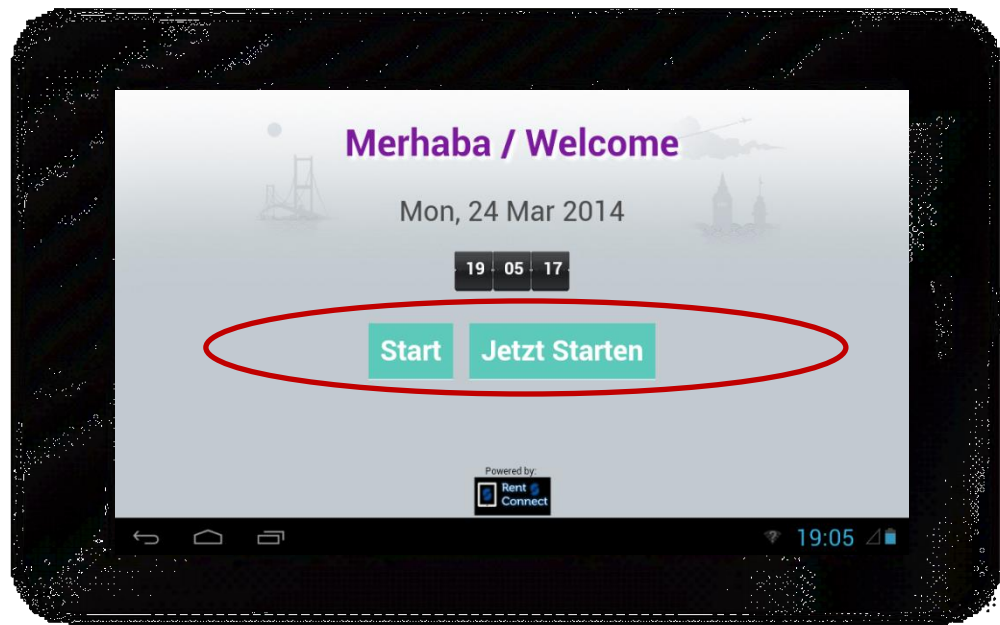

- 1 - View recent applications.
- 2- Return to the Home Application from other applications
- 3- Return to the previous screen.
- 4- Notifications
- 5- Return to Main Screen when using Home Application
- 6- Return to the previous screen when using Home Application

2 Internet: Browse internet as you want

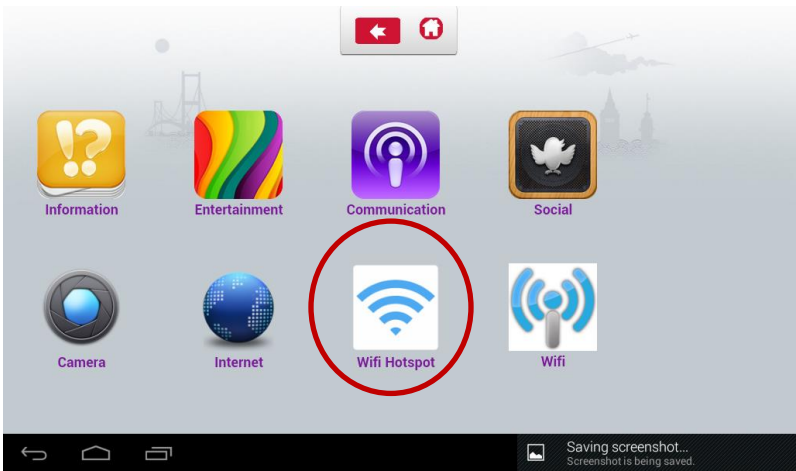

3 Wifi Hotspot: Share the 3G internet with upto 8 users

4 Wifi: Connect to wireless internet

- **Other options - Details**

Wifi Hotspot: Share the 3G internet with upto 8 users:
You can connect to the internet via wifi from any mobile device or pc using the mobile 3G connection of your Digital Guide.

You simply need to press Wifi Hotspot button on the main screen to activate the hotspot, then on your personal device, open the wifi connections, and select the “Rent’n Connect#” wifi network, and enter the password listed on your device or provided to you by us to complete the connection. Once you are done sharing the internet, you can again press Wifi Hotspot button to deactivate.

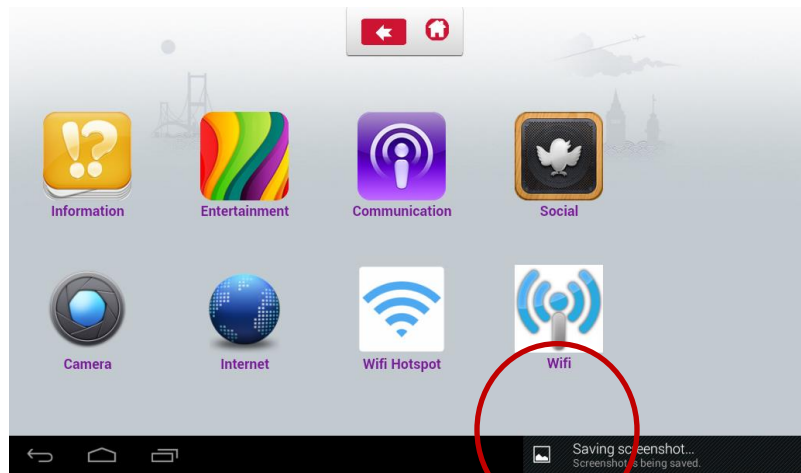

- Other options - Details**

Wifi: Connect to wireless internet

When you are at a location where wifi connection is available, you may choose to connect to the internet via wifi instead of mobile connection. This will help you use your fair usage quota efficiently especially for viewing content such as videos that may require high amounts of data download (ie Youtube, Viewster, etc.)

To activate please press Wifi on the main screen:

Then, on the next screen titled Wifi Manager, you may select a Wifi connection listed and connect to it using the connection info provided to you by the provider.
